CLP Hazard Labelling Advice for Consumer Products

This advice relates to labelling rules under the Classification, Labelling and Packaging of Substances and Mixtures Regulation (EC) No 1272/2008 (CLP Regulations). Although most parts of the CLP regulations are mandated, some aspects, such as precautionary information, relate to the use of the product and the intended user and therefore some interpretation is required. The interpretation applied here relates to consumer use and follow official guidance.

Please note this advice relates to use at the specified concentration, in the specified base, and using containers and or packaging which do not give additional labelling requirements (such as aerosols).
